

Short Summary:

The Wisconsin Department of Natural Resources (WI DNR) is currently working on a potential purchase of land on Beaver Creek. The property would connect two stretches of land the WI DNR already owns on Beaver Creek. The more partners the department can secure as supporters, the better the odds of being approved for the land acquisition.

[ONLINE VOTE \(Sunday, January 10th, 2021\) - "Should GBTU commit a minimum of \\$1000, with a final amount contingent on winter/spring fundraiser, for the Beaver Creek land purchase ?](#)
