Brown Co. Conservation Alliance, Bruce Deuchert - there was a presentation last night on the emerald ash borer. Trees in our area will be pretty much done for. You can treat for the borer but that will only slow the inevitable. Also - the jumping worm - another invasive - they outproduce native worms and go through leaf litter much faster, which many native species need.

Bruce Deuchert will be the chair for the Banquet this year.

Welcome to new members Carla and Jose.
